23RD INTERNATIONAL FISHERIES AND AQUACULTURE EXHIBITION IN DENMARK

9, 10 AND 11 OCTOBER 2013 · AALBORG CONGRESS & CULTURE CENTRE

” *There’s a great workshop programme this year ... and Aalborg is a great place to network. We look forward to see you all, you fish lovers!* ”

DanFish is one of the world’s most important trade fairs for equipment and services for the fisheries industry and a unique forum for networking among the international exhibitors and visitors.

In 2011, DanFish and DanAqua welcomed 350 exhibitors from 25 countries and more than 13,000 visitors.

DanAqua is the trade fair of the future for the fish farming sector. It was organised for the first time in 2011 attracting the attention of both Danish and international visitors. DanAqua offers producers and other suppliers to the aquaculture sector an outstanding opportunity to come into contact with affluent international buyers. DanAqua will focus particularly on recirculating aquaculture technology in 2013.

Easy access to Aalborg by road, rail, sea or air
For details, visit danfish.com or danaqua.net

AquaCircle is an association of Danish companies, institutions, fish farmers and other stakeholders with an interest in recirculation aquaculture technology.

The aim of AquaCircle is to share and disseminate information, promote research, form new projects initiatives and facilitate the development of recirculation aquaculture worldwide.

AquaCircle is supporting the workshop as well as the exhibition and is looking forward to fruitful gathering in Aalborg. www.aquacircle.org
